

DLelement

E

CircDLelement.CircDLelement

```
classDiagram
    class DLelement
    class E
    DLelement <|-- E
    note for E "CircDLelement.CircDLelement"
```

The diagram illustrates a generalization relationship between two classes, DLelement and E. DLelement is the superclass, and E is the subclass. A horizontal line with an open arrowhead at the E end represents this generalization. A vertical line descends from the midpoint of this horizontal line to a rectangular note box containing the text 'CircDLelement.CircDLelement'.
